

Banbros Limited was incorporated in 1990 and started its operations in 1993 with capital assets worth Kshs.11.5 million and a workforce of 50 people. Its parent company Sarwan Singh Bansal Ltd was established in 1957.

In 1999, the construction of a new plant was embarked upon and currently Banbros Limited operates from their new workshop off Mombasa Road, which is second to none in this part of the world.

The company has a highly empowered workforce of over 200 people with various skills. Most of the employees are regularly trained in house and also by experts from India, South Africa and Europe.

Banbros has specialized in fabrication of bus and coach bodies and is one of the leading manufacturer in the East African region and targets to venture into the larger COMESA market in the near future.

In its bid to provide a better product, through its research and development, Banbros is currently constructing modern Jigs & Fixtures to standardize body fabrication to ensure consistent quality.

## Equipment

Banbros has invested in two C.N.C bending and punching machines which are fully operational.

Bus body parts are now being fabricated from the CNC machines:
